**Thomas Chenuant Cannot Be Tried Again for Burglary—John Connors Escapes From Jail—An Old Man Severely Injured.**

The city council met last evening in regular session. On account of a mistake in the advertisement for bids on sewers, a resolution was adopted to reject all bids and advertise again.

Dr. H. St. John, president of the Home Society, petitioned the council to appoint a stock inspector at the stock yards. All action in the matter was deferred until the next regular meeting.

A resolution was adopted to appoint a committee of three commissioners to investigate the running of cars on the Elevated road at Westfield and to report at the next meeting of the council that the two roads were running the specified number of cars as required by their franchise.

Action was suspended in regard to paying bills for light in the city until the suit of Keppler & Co., pending against the city, is settled. A number of claims against the city were allowed and the city treasurer instructed to pay the claimants. The bill was paid in full, all salaries of policemen for the first four months of last year.

The money turned over to the city yesterday by the board was the first the city has received from this source for the past six months. The board has been unable to pay all salaries of policemen for the first four months of last year.

The city will now be able to meet its obligations to the police force and the police will be paid out of this sum.

**He Lived on a Farm Near Muncie for Twenty-two Years.**

Michael Kane, aged 22 years, died Tuesday night of pneumonia at the home of his daughter, Mrs. John Lamby, on the Bend road near Muncie. Kane was an only child of nine children, and when he was born his mother died. He was brought up by his grandmother, who he did not see for two years.

He attended the public schools, but only made out in the lower grades, as he was not priviledged of doing under the state law. Attorneys for the defendant again argued that the court had no jurisdiction to try the case again on the charge of burglary.

He said that he had been tried and acquitted of the charge of burglary, and would be placed on trial again for the same offense.

He claimed that although the charges of larceny and burglary were included in one count, he was tried separately, and that there had to be separate sentences for each in case of conviction.

State's attorney again asked for a new trial on the charge of burglary, as his client had been declared innocent of the charge.

When the court adjourned the case to the county attorney's office for the second time, it was found guilty.

**In curing consumption there's nothing like taking Time by the forelock.**

Doctors say consumption can't be cured unless you have arguments to prove it. But when they see it cured right under their face and eyes by Medical Discovery, they admit that there's something wrong about their arguments and something wonderful about the "Discovery." It isn't miraculous. It won't cure every case; but it cures a surprisingly large percentage of cases, even when the patient is pretty far gone with a bad cough, and nothing else seems to help. Consumption is a disease that attacks the blood vessels and weakens almost to a standstill. Consumption is a blood disease. The lungs want a fresh supply of pure rich blood and plenty of it; that is what the "Golden Medical Discovery" gives them. It is a blood unerker. It gives the blood-making functions power to produce a large quantity of the nourishing red corpuscles which make healthy life-giving blood. This stops the wasting; drives out the impurities; heals the ulceration and begins a rapid building-up process, of solid, substantial flesh and vital energy.

It isn't only consumptives who need the "Discovery." It cures every form of chronic blood-disease and all scrofulous and eruptive affections.

Mr. ISAAC E. DOWSE of Spring Hill, Kas., died Saturday, Jan. 5, at the age of three years. He suffered from that terrible disease, consumption, and heart disease. Before taking Doctor Pierce's Golden Medical Discovery he could not sleep nor eat, and many times wished to die to be out of my misery.

Step by step, the signs and realities of returning health developed, and the boy was soon walking the "Discovery." Today I find the scales at one hundred and eighteen-seven, and am well and strong. I have completely cured my daughter of a very bad ulcer located on the thigh. After trying almost everything without success we concluded there was something seriously wrong with her.

Yours truly,  
Isaac E. Dowse
